

ABOUT ELLIOT BROWN STRAPS | SIZING & FITTING

ELLIOT BROWN

MEN'S STRAPS 22mm

Elliot Brown men's watchstraps have a 22mm width fitting. Each strap type wears slightly different and all are designed with the outdoor adventures in mind. Elliot Brown recommends bracelets, rubber and webbing straps when deciding to wear your watch during outdoor sports and activities and if it is going to see a lot of use in water or moist conditions. Leather, felt or canvas is better preserved for other occasions.

TYPES OF MEN'S STRAPS

EPDM Rubber: Feels natural to wear and isn't sticky. It is Hypo-allergenic and resistant to seawater, ozone, and UV.

Waxed Leather: Starts to age and wear in from the moment you start wearing it. With every flex of the strap, the wax will flex and lighten and change, and gradually through time the wax will darken and develop a beautiful lustre.

Black Textured Rubber Strap: With iconic 'basketweave texture' on upper surface and moulded stitch detail around the edges. This strap can be cut down to a custom size and include instructions on how to do so.

Patented [Webbing Strap](#): Ultra-lightweight, quick-drying and virtually unbreakable, with yarn treated with lifetime anti-bac.

Ballistic Webbing NATO Strap: Lightweight, silent and incredibly tough, sits nicely on the wrist and is resilient made with military type ballistic nylon.

Leather Strap: Premium leather lined with soft nubuck.

Canvas Strap: Hand sewn canvas lined with soft nubuck leather.

Bracelet: Vapour blasted or bead blasted solid 316L stainless steel machined plates to line perfectly with EB watch case.

MEN'S STRAPS SIZES

- **Leather deployant straps:** range from 150-205mm and snap closed to the correct size every day.
- **Canvas deployant straps:** come up very slightly longer at 155-210mm as do the woollen felt straps.
- **Webbing NATO pin buckle straps:** range from 120-220mm (There's a longer version in black up to 235mm)
- **Webbing clamp buckle straps:** range from 100-220mm. Long versions extend up to 250mm.
- **Rubber straps with pin buckles:** fit wrists from 140-195mm.

- **Rubber straps with a deployant buckle:** fit wrists up to 210mm and can be cut down for any smaller wrist size.
- **Bracelets:** fit from 145-195mm in standard size although any number of links can be added, plus the divers expansion clasp gives a further few millimetres additional length when required.
- The watch case size has a small impact on overall strap sizes, for example the 41mm Tyneham comes up 3mm shorter than the 44mm Canford or Bloxworth.

TOOLS FOR THE JOB | Strap Bar Tools, Stainless Bars & Screws

Elliot Brown watch straps can be changed to suit your lifestyle and preference since all watch straps are 22mm in width.

Strap bar kits are a great upgrade to make strap changes quicker and easier if you own a Canford or Bloxworth watch with 2 x slotted screw ends on the strap bars. It comes with 3 bars, 3 screws (a spare of each) and 2 x EB driver tools that lock into both ends end of the strap bar.

Each and every Elliot Brown watch comes with a driver tool for convenient strap changes.
