

GODARK RFID PROTECTION NECK WALLET FAQs

What are the dimensions of the neck wallet?

The bag, when closed, but not in the tri-fold position, is 14cm x 20cm. If you choose to tri-fold, then it reduces to 14cm x 12.7cm

Will my phone fit?

Most smartphones do fit in the neck wallet. It has a dimension of 14cm x 20cm. However, please measure your phone against it, just to be sure.

How many pockets does it have?

There are 3 zippered pockets, 1 velcro pocket, and 2 pockets you can just reach into. One of the side zippered pockets has room for 4 credit cards. 2 of the slots are meant for cards that read in the landscape mode, and 2 that read up and down, or in portrait mode.

How do I test the RFID functionality?

If you are looking for a super simple test, leave your tap payment card in the neck wallet, and tap it over a tap payment terminal at any store. The signal should be blocked, and your information will not transmit.

How large is the toggle closing on the neck stash?

The toggle is very smooth and is approximately 2.5cm in length with a diameter of approximately 0.9cm.

How many passports can it hold?

It can hold about 2-3 passports.

Is the whole neck wallet RFID Protected?

RFID shielding does not cover the small change/coin pocket on the top flap.

Can I wear this through airport security?

It would have to be taken off at airport security screening check point.

How long is the strap?

The strap is 116cm from end to end.
