

WHY HYDRACELL?

No other torch can match HydraCells 100+ hours of continuous light.

Able to be stored for 25+ years, and still be instantly activated by dipping in water, torches and lanterns powered by HydraCell technology provide light when and where you need it. At home, at the campsite or on the boat, you'll never be caught short of light with HydraCell.

ECO-FRIENDLY

- ✓ NON TOXIC
- ✓ NON HAZARDOUS
- ✓ RECYCLABLE
- ✓ BIO-DEGRADABLE

100+ HOURS

OF HIGH PERFORMANCE
WITHOUT A BATTERY

HYDRACELL TECHNOLOGY

HydraCell is a revolutionary battery fuel cell technology. It uses magnesium and oxygen, activated by water, to create a stable, long-lasting flow of energy, ideal to power portable light and energy sources. No need to connect to mains or traditional batteries. Simply dip in fresh or salt water to activate for over 100+ hours of continuous power or light.

HYDRACELL - A CLEANER AND GREENER LIGHT SOURCE

Standard dry-cell batteries contain a cocktail of caustic and toxic chemicals.

HydraCell's unique magnesium and oxygen power cells are completely non-toxic and recyclable. Importantly, they will not corrode and spill toxic residue like normal batteries.

Every HydraCell purchased reduces the world's massive and toxic stockpile of used batteries going to landfill.

HYDRACELL™ TECHNOLOGY. POWERING A POSITIVE FUTURE.

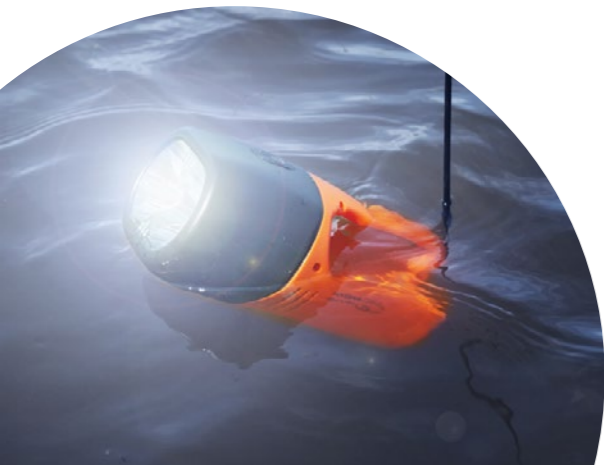

HYDRACELL™
Powering a positive future.

HYDRACELL SHARK LIGHT

Never worry about a flat torch battery again.

- HydraCell Shark Light means 200 hours of powerful light in any conditions.
- 25+ years shelf life (while sealed). Just rip, dip and shine.
- Emergency strobe light function – floats at 45 degrees for increased visibility

On water or off-the-grid, being caught without light when you need it is a nightmare. The HydraCell Shark Light can be used today or can be stored for up to 25 years. A must-have on every boat or campsite.

HYDRACELL MINI LIGHT

The personal light source that won't let you down.

- Compact and light
- 100 hours of bright light
- Keep in your handbag or glovebox for 25+ years (while sealed)
- Simply rip, dip and shine

If personal safety and security are important to you, the HydraCell Mini Light is the must-have addition to your glovebox, handbag, schoolbag or toolbox.

Robust, inexpensive and easy-to-store, HydraCell Mini Light is the ultimate personal flashlight.

HYDRACELL CUBE LANTERN

The ultimate environmentally friendly camp light and power source.

- 100+ hours of light in any conditions before replacing plates
- Recharge with salt water – no batteries, electricity or solar required
- Light AND 12-volt power through USB
- 25+ years shelf life

HydraCell Cube Lantern is the perfect camping light source. Use every night for a week and still have emergency charge to spare for phones, tablets, and earbuds.

HYDRACELL ALUMINIUM TORCH RANGE

Never be caught out with flat or corroded batteries again.

- 100+ hours up to 350 lumens of light power
- Store for 25+ years (while sealed)
- Lantern function on Aqua Tac model
- Durable and hard wearing
- Fully recyclable power cells with no toxic chemicals

With unmatched endurance and environmental credentials, this is the ultimate torch for campers and fishing enthusiasts.
